PLOT_EG Introduction

Plots the eigenvalue spread of a matrix A

Establishing Plot Vectors

```
e = eig(A);
```

Establishing Graph Components

```
xlabel('Real');  
ylabel('Imaginary');  
title("Eigenvalues of the Hilbert Matrix");
```

Printing Results

```
hold on  
box on  
grid on  
  
Eigenvalues = plot(real(e), imag(e), 'bo');  
Eigenvalues.MarkerSize = 5;  
Eigenvalues.MarkerFaceColor = 'b';  
  
axis tight  
  
end
```
